

WCSC Membership Information

Individuals interested in joining the club may take one free trial session before committing to membership.

After the trial you will need to take out an annual membership as outlined below and pay a coaching fee of £5 per session to the club, in addition to the slope fee paid to Gloucester Ski and Snowboard Centre.

Unless you already have a monthly or annual slope pass, you should request the discounted WCSC race-training slope pass for Monday evening sessions-only available while training with us.

An Application for Membership form is available from the website www.westerncountiesskiclub.co.uk or from the club secretary, Claire Goddard in person or by emailing westerncountiesski@gmail.com

Club membership runs from the date of joining to 31 December of that year.

However, any member who joins from 1 October onwards in the current year will have a valid subscription that runs until 31 December in the following year.

The standard cost is £25 for each full year.

WCSC offers discounted rates for family groups, so if one family member joins for £25, a second or subsequent family member pays £15. These family reductions are applied to two or more family members regardless of whether an adult is included. Non-skiing parents, partners etc. associated with the club can join as concessionary members for £10, adding you to the members list, newsletter circulation and social

groups and ensuring you are covered as a club member for third party liability. For the family group discount, where some family members have a concessionary membership, the discount is only applied after a full membership for a first family member not after a concessionary membership.
